

2 November 1955

MEMORANDUM FOR: Colonel White

25X1A SUBJECT : Proposed Regulation [redacted], "Compliance with Security Regulations"

25X1A9A 1. Attached are (1) a copy of Proposed Regulation [redacted] "Compliance with Security Regulations," (2) memo dated 7 Sept 55 to DD/S signed by C. V. Hulick for Mr. Helms, in opposition to the proposed regulation, and (3) memo dated 28 Oct 55 to DD/S from Mr. [redacted] in opposition to prolonged coordination of the regulation and DD/P objections generally.

25X1A9A 2. I understand and [redacted] emphasizes in his memo that this proposed regulation has a long history of rather fruitless coordination. Bob notes his understanding that Col. Edwards recommended that you authenticate if Security, Personnel and OGC concur, as they have. I would assume that you did not accept this recommendation; Bob simply leaves this thought in limbo, however.

3. It would appear quite obvious that Security and DD/P are at loggerheads on several points which are not likely to be resolved through further "coordination."

4. Granting my own ignorance of a large share of the detailed background of this matter, I would suggest that the time has come for a round table of interested parties, mainly DD/P and Security, with the DD/S presiding. I understand that you are familiar with the main points of dissent and, accordingly, I have not chronicled same.

5. Please advise re action you wish me to take in this matter.
